## **EUROMAIDAN BOOK**

**As some of you know, I started writing these mails on Saturday, Dec. 1<sup>st</sup>, 2013, the day after students were beaten up on Independence Square in Kyiv, the start of the Euromaidan Revolution now known as the “Revolution of Dignity,” and the day before the first massive demonstration on Independence Square.**

**To mark the 10<sup>th</sup> Anniversary of the start of the Euromaidan Revolution and the concurrent beginning of these emails, I am making available a never been published book that I wrote in 2016, incorporating many of the emails I wrote during that period, plus extensive additional material.**

**As an exclusive offer to our email recipients, you can purchase an advance copy of the book for \$25.00, or in any other recognized currency. It’s in the form of an Ebook. To purchase the Ebook, please click on the link [HERE](#). After December 9, 2023, the price will be \$30.00. I have no immediate plans to publish the book, so this is an exclusive offer.**

**Looking back, I have concluded that it’s impossible to understand that is happening in Ukraine today, in terms of Ukraine’s response to Russia’s latest invasion, without understanding what happened during Euromaidan. Hopefully the book will add to people’s understanding of this extraordinary period.**

**In writing the book, I was interested in learning about how the Euromaidan Revolution was managed, especially its leadership.**

**From my research and extensive interviews, I concluded that the leadership of Euromaidan was not what either Western experts or the Russians expected, or the kind of leadership one might learn at business school. As a result, there was continual misunderstanding between the protestors, and those in the West and Russia whom they believed constituted the leadership.**

**Among other things the book contains:**

- **Extensive interviews with those involved in various aspects of Euromaidan, including:**
  - **Those responsible for food service and distribution**
  - **The design and placing of the barricades that protected Independence Square from the Interior Ministry police, known as the “Berkut”**
  - **The person who established the initial first-aid station on Independence Square, and who later was responsible for managing and operating first-aid stations and makeshift hospitals located throughout Central Kyiv**
  - **A leader of one of the volunteer battalions**
  - **A member of “AutoMaidan”**
  - **The leadership of organizations located outside of Kyiv that provided logistical support and money, to support the protests in Independence Square, without which Euromaidan might have turned out differently.**
- **Also included is an extensive collection of YouTube videos, that appear in footnotes. covering the protests and the fighting. Some of the videos are very hard to watch. Included are:**
  - **Video of a presentation in Washington, DC by Yulia Tymoshenko’s legal team, rebutting the claims made by Yanukovich’s legal team of graft that took place when Tymoshenko was Prime Minister of Ukraine. The video amounts to dueling American “white shoe” law firms.**
  - **Video of a lecture given by my wife, Larysa, on December 12, 2013, on Independence Square sponsored by the Open University of Ukraine**

- **Videos of the tragic events on Institutska Street, that took place on February 20, 2014**
- **Security camera footage from Yanukovich's estate, Mezhihiria taken on February 18, 2014, showing movers moving Yanukovich's personal effects, 4 days before his actual departure.**
- **My own observations and stories from being in Kyiv throughout Euromaidan.**

**I have decided to withhold the names of those private individuals whom I interviewed, some of whom are now fighting in the Army. Other than this the book, and emails contained therein, are as I first wrote them.**

**I am very excited to offer the book to all loyal recipients.**

Talk by Sir Richard Barrons at the Lucerne Dialogue

Sir Richard Barrons is a retired general in the British Army. If you don't have time to watch his [entire speech](#), which is well-worth watching, then go to the 17<sup>th</sup> minute where he talks about the War in Ukraine, and the choices that Ukraine's Western supporters must make. This portion last approximately 3 minutes.

Here is what Gen. Barrons said:

- "The War in Ukraine is about your interests and your security."
- "Right now, there are Ukrainian soldiers sitting in trenches where they will be all Winter, with not enough ammunition, and equipment, and training."
- "The only way Ukraine wins is if we mobilize our industry and our will behind that."
- "And do not tell me that it's unaffordable."
- "We have an economy of \$15 trillion/year, and I can lead the Ukrainian Army to victory at \$75 billion/year for two or three years (The Biden Administration's budget request for Ukraine is around \$60 billion, for Fiscal Year 2024).
- "This is not about affordability; this is about choice, and competence."

- “Isn’t it a bargain if we can defeat Russia’s objections to you, where we only spend money but we do not spend children.”
- “The Bargain of the Century.”
