

A letter to liberals  
Robert F. Kennedy Jr.

I'm not a liberal, but I like it very much

Given the treatment that RFK Jr. has received at the hands of people who call themselves liberal, I'm no longer so sure about him.

He advocates traditional liberal values: open-mindedness, fairness, toleration, compassion and so forth. So far as I can see, in today's world the progressives shout their virtues from the rooftops and wear it on their sleeves. The conservatives quietly practice them.

RFK Jr. is brave, honest and humble. We welcome him when he finally acknowledges that these are conservative values.
